

## **Baba Ramdev elaborates huge conspiracies in Delhi Rally**

Posted on February 28, 2011, 5:59 am, by admin.

Under the leadership of Baba Ramdev there was a successful rally in Delhi on 27th Feb.

Inspite of efforts of some corrupt people to fill water in Ramleela Maidan to created hurdles for this rally and more than 100 busses being stopped at Delhi borders because of space shortage issues the rally was conducted successfully.

Following are the highlights of a 45 minute fiery speech given by Baba Ramdev which covers a long list of conspiracies our nation is facing:

1. Rs. 400 lakh crores black money in our economy – Our economy has a huge amount of black money. Rs. 300 lakh crores being stashed away in tax havens and Rs.100 lakh crores is being in internal circulation. The government is not doing anything to stop this or to get back the money stashed in Swiss banks. This is a massive amount which means that every family in this country would get Rs. 2.5 lakh. Each jila can get Rs. 50,000-60,000 crores for development. Each village would get Rs. 100 crores. It could take our country ahead of many developed nations overnight.

**Question to Ramdevji: How he could purchase Rs.1000 crores land outside India for his Ashram? He said his Bhakta has donated him. Can anybody believe it! In Gujarati there is a proverb “હાથીના બતાવવાના અને ચાવવાના દાંત જુદા”**

2. Rs. 10,000 lakh crores national resources at risk – Our country has 89 types of minerals and the known reserves of these 89 minerals are worth Rs. 10,000 lakh crores which is at a huge risk. The Government has granted licenses to only 200 companies whereas in reality more than 1 lakh people are mining the resources and illegally generating wealth and black money. If this is not stopped our country could lose a massive amount of natural resources reserves.

In this natural resource reserve we have iron reserves worth Rs. 550 lakh crores and coal reserves worth Rs.950 lakh crores which are being depleted at a very fast pace by illegal miners.

**Question: Fully agree with Ramadevji, but is he going to say few words to Narendra Modi or organize a rally about mining mafias of Gujarat? They killed young activist in day light in Ahmedabad and killers are connected with BJP mining mifias. Or going to donate public money collected by him to BJP for election fund? It is in record and confirmed by his ashram's Cheque that he paid 11lacs rupees in election fund to BJP in last election, though he says that**

**he is not attached to any political party. If he is honest he should confirm that it was great mistake on his part and will not support any party with public money.**

**3. Huge money in circulation – We have Rs. 10 lakh crores of money in circulation which is more than 15% of our GDP. What is so much money doing in our economy? This is nothing but to facilitate the black money economy. In US, UK, Canada there is a money circulation of only 3% of the GDP. Hence if the money circulation in our country is Rs.10 lakh crores then our GDP should be approximately Rs. 330 lakh crores instead of Rs. 60 lakh crores. So where is the rest of the GDP ? The answer is black money and the location is Swiss Banks.**

**4. Massive amount of high denomination notes in the economy – In this money circulation of Rs. 10 lakh crores 30% of the money is in Rs.1000 denomination. What is such a massive amount of high denomination note doing in the circulation when 80% of our country gets only Rs.20 to spend per day? The amount of Rs.1000 notes in the circulation was 1.8% in 2001 which has been cunningly raised to a massive figure of 30% for no logical reason in a period of just 10 years. This is doing nothing but helping in easy transportation of black money in form of cash. Hence the government should recall all high denomination notes instantly.**

**5. Corruption eating national spending – The government has made budgets worth Rs.200 lakh crores in the past. This is a huge sum of money. But can we see anything? Former Prime Minister Rajiv Gandhi had said that only 10%-15% of the money spent on the nation reaches the people, the rest is engulfed by corruption. Then why is the government not doing anything against it?**

**Question: When he has no connection to any political parties why he is blaming only congress party? BJP and other people were ruling in past, why he is not blaming them? Because he is connected with them? All are fully agree about corruption and involvement of congress party but Mr. Clean Ramadevji must speak about BJP and corruption of their government. People had great respect for him, but nowadays the way he is acting against only one party and giving donations to BJP is giving bad smell about his clean intentions. He should clarify himself and beg apology for donations to BJP, then we all are with him.**

**6. Huge amount of scams – The 2G spectrum scam alone is worth Rs. 1.76 lakh crores. That is equivalent to 25% of the annual budget of our country. And what is the government doing? NOTHING.**

**Question: We are fully agreed but it should not be one way traffic. It is started by BJP led government; Sukharam and Pramod Mahajan were main culprits (Mahajan's son is enjoying with public money today). As per reliable sources Mahajan has collected more than Raja. Certain amount he paid to BJP and balance with his bank. Will Ramadevji speak about same in open public meetings? Ask for inquiry?**

7. No punishment for the corrupt – There is not punishment for the corrupt in our country. The government is only claiming to punish the corrupt but WHERE IS THE PUNISHMENT? The maximum a corrupt person gets is a imprisonment of 2-3 months or if it's a huge corruption case then up to 3 years. But even then no one is actually caught because of the corruption in the judicial system and the massive amounts of cases pending in the courts.

**Question: What Ramadevji is going to do? Change the constitution? It is require, and we have to change our constitution. But then there will not be any democracy? Unless and until people themselves do it, it is not possible by any party.**

8. British Laws still being followed – According to the constitution of India if a person like Binayak Sen speaks against the Government it's considered to be National Betrayal and the person is imprisoned. This law was made by the Britishers to suppress any form of voice against the British government but sadly this law continues to reside in the constitution of India. If the Government is corrupt you cannot raise a voice against them, it will be treated as national betrayal. Voice against the government is betrayal but actions of corruption against the nation are NOT national betrayal. If you speak against the nation you are safe. If you speak against corrupt government you will be imprisoned. This is what the Constitution of India says.

9. Government turning into property dealers – Huge scams of immoral land acquisitions are going on everywhere. In U.P. 2 km wide fertile lands are being acquired for building a road for Rs.20 lakhs and are being sold at the rate of Rs. 5 crores by the government. What is the government doing? Buying land from farmers and turning it into waste be feeding it with harsh chemicals and selling it to people for such massive profits? Why has the government turned into property dealers?

**Question: Same thing is done by Mr. Narendra Modi. Ramadevji should openly support Kanubhai Kalasariya who is agitating for farmers whose green land has been given by Modi to Karasanbhai of Nirma for factory. Same way Modi gave very good farming land to Tata, Essar, Adani. What is Ramdevji's reaction for Modi's free distribution of poor farmers land?**

10. Operation of Swiss and Italy Banks – Why are 8 Italy banks and 4 Swiss Banks like UBS being allowed to operating here? When no common man has accounts in these banks why are these banks being permitted to operate in our country when it's a known fact that these banks come from tax havens? The answer is obvious. They are allowed here to facilitate easy transfer of black money to tax havens from our country.

11. Demoralization of the youth – 450+ government schemes are running and glorifying just 1 family. No schemes are named on krantikaris like Bhagat Singh or Chandrashekhar Azad. People who sing songs get national awards like Padmashree which is fine. But people who

**have died for our country do not get anything. This is a cunning conspiracy to not allow development of nationalistic and independent ideologies in the students and youth. Huge money is spent just to glorify 1 family as if they are the only people who work for our country.**

**Spread this article to as many people possible. Use social networks, mailing lists, etc. Use printouts, pamphlets but educate as many people as possible which is what Baba Ramdev wants. Every person in our country should be educated about politics, anti-corruption, health and fitness. Then only we can build a better nation.**
