

“Carefree and comfortable travel, customized according to your needs. You can get in the vehicle wherever and whenever you need. It will take you to your destination without any changeovers. During the journey, you can get on with your work, or sit back and enjoy the speed and the luxury. This service will be yours for a fare which is comparable to the prices of present day’s public transport.”
This is not a dream, but a concept that formed the starting point for the development of Superbus as an innovative alternative for today’s personal mobility.

SUPERBUS - DUBAI
