

## World's Top 10 Longest Single Span Bridges

1. Akashi-Kaikyo Bridge, Japan  
– 1,991 m

<http://suratiundhiyu.wordpress.com/>

The Akashi-Kaikyo Bridge in Japan heads the list of the top 10 longest single span bridges in the world. Europe's longest single span bridge is the Great Belt Bridge in Denmark, although current plans for a bridge between mainland Italy and Sicily across the Messina straits would surpass it if given the go ahead. The Tsing Ma (Hong Kong to China), has the longest span for a bridge with both road and train traffic

**2. Xihoumen Bridge, China – 1,650 m**

### 3. Great Belt Bridge, Denmark – 1,624 m

4. Runyang Bridge, China – 1,490 m

5. Humber Bridge, England – 1,410 m

**6.Jiangyin Suspension Bridge, China – 1,385 m**

7. Tsing Ma Bridge, China – 1,377 m

8. Verrazano Narrows Bridge, USA – 1,298 m

9. Golden Gate Bridge, USA – 1,280 m

10. Yangluo Bridge, China – 1,280 m
