Ascot - First place the ascot loosely around your neck.

Then take hold of the right end and place it over the left end.

Pull the right end up and through the loop thus formed underneath.

ASCOT

Place what started out as the right end of the ascot precisely over what started out as the left end

Stuff the ascot under the shirt leaving the top button undone. Adjust both ends of the ascot.

Bow Tie – Adjust the bow tie to the right size before putting it around your neck. The left side should be slightly longer.

Move the left end over the right so that both ends cross at the narrow area behind the oval curve.

Take the left end through the loop now surrounding your neck, and pull both ends to make a loose, simple knot.

Take the end now on the left and fold it to the right in the middle of the oval.

Now pass the right end around the folded left end of the bow – pulling it back up to the top of the knot. You now have a loop.

Take the right end and fold it as you pass it to the left through the loop you have made. Push the folded right end far enough through to stay in place.

Hold the bow at both folded ends and pull carefully. This tightens the knot.

Adjust the bow by taking both ends, folded and unfolded, and carefully pulling until the bow is firmly tied.

BOW TIE

Cross Knot – Start with the broad end hanging further down on the right. Pass the broad end over the narrower end.

Pass the broad end under the narrow end.

Pull the broad end over then underneath the outer layer of the loop around your neck.

Now take the broad end and pass it right around the knot.

Pass the broad end up from below and behind the knot and through the loop around your neck.

The knot begins to take its shape.

Pull the broad end underneath the outer layer of the knot.

Carefully adjust the knot, holding it gently and pulling the narrower end.

CROSS KNOT

Four-in-Hand – Place the necktie around your neck with the broader end on your right. It must hang lower down than the narrower end.

Take the broad end move it left and across the narrow end, holding the narrow end in your left hand. Now pass the broad end around the narrow end.

Pass the broad end around the narrow end so that it is lying on the left again. The Shape of the knot is beginning to materialize.

Pass the broad end underneath the half-formed knot. Then pull the whole of the broad end through to the front.

Pass the broad end of the necktie between the layer of the knot which is now on top and the layer directly underneath it, and pull the broad end through.

Hold the narrow end of the tie firmly and slowly tighten the knot. Do not forget to button your shirt.

FOUR IN HAND

Half Windsor - Start with the broad end hanging further down on the right. Pass the broad end over the narrower end.

Pass the broader end under the narrow end.

Then pull the broad end over the knot and down toward your body through the loop that has been formed.

Now take the broad end and pass it around the half knot.

Pass the broad end up from below and behind the knot and through the loop around your neck.

Pull the broad end underneath the outer layer of the knot.

Carefully adjust the knot, holding it gently and pulling the narrower end.

The broader end of the necktie should now hang down further than the narrow end.

HALF WINDSOR

Prince Albert – Start by passing the broad end to the left over the narrower end. Then back under the narrow end.

Pass the broad end back over the narrow end.

Repeat the first step by passing the broad end back under.

Repeat the second step by passing the broad end back over the narrow end.

Pass the broad end behind the knot and through the loop around your neck.

Pull the broad end underneath the outer layer of the knot.

When completed the Prince Albert forms an elongated knot.

PRINCE ALBERT

Small Knot - Twist the broad end so that the seam is showing. Then cross over the broad end with the narrow end.

Pass the broader end over the narrow end.

Pass the broad end underneath the half-formed knot.

SMALL KNOT

Then pull the whole of the broad end through to the front.

Pass the broad end of the necktie under the top layer of the knot, and pull the broad end through.

The Small Knot.

Windsor - Start with the broad end hanging further down on the right. Pass the broad end over the narrow end.

Pull the broad end underneath then over the loop around your neck.

Pass the broader end under the narrow end.

Pull the broad end over then underneath the outer layer of the loop around your neck.

Now take the broad end and pass it around the knot.

Pass the broad end up from below and behind the knot and through the loop around your neck.

WINDSOR

Pull the broad end underneath the outer layer of the knot.

Carefully adjust the knot, holding it gently and pulling the narrower end.

The Full Windsor
