

Your shoes size tells your age

This is not accurate....

This is 105% accurate....

Your shoes can tell you your age.....try this and see:

1. Take your shoe size.
2. Multiply it by 5.
3. Add 50.
4. Multiply by 20 ...
5. Add 1012.
6. Subtract the year you were born...

The first digit is your shoe size, while the last 2 digits are your age.

SURPRISED??
